

# Thank you, teacher!

---

Dear Wolfram,

from 26<sup>th</sup> March to 26<sup>th</sup> November 2012 we learned some basics of the English language with you. We can speak English more words and small sentences. We have understood that “did and do” are particularly important, especially when the questions and answered in the negative. We have noticed us: “When he, she, it, an s comes with!” And we do not dirty pronounce “dancing”, but just dancing.

You have had a lot of patience with us. We had a lot of fun in the classroom.

Thank you very much for everything.

Some come to the next course, some learn at home.

Best wishes

Students of the course “Networking A1”

26<sup>th</sup> November 2012
